PROJECTS

GROCERYAI – AI-POWERED SMART SHOPPING & RECIPE PLATFORM LINK **2026**

Developed a full-stack AI-powered grocery and cooking assistant that generates personalized recipes from user ingredients and automatically adds missing items to a smart cart. Integrated voice, text, and image-based input for seamless interaction, along with features like nutrition tracking, AI meal planning, chatbot assistance, and fast delivery, providing a complete end-to-end smart shopping experience.

HOSTEL HUB – SMART HOSTEL COMPLAINT MANAGEMENT SYSTEM LINK **2025**

Developed a full-stack web application for efficient hostel complaint management, enabling students to submit issues, wardens to assign tasks, and workers to update progress in real time. The system ensures transparency and faster resolution through role-based access control, real-time updates, and a secure, scalable architecture.

CAMPUS CAFETERIA MANAGEMENT SYSTEM (CCMS) LINK **2025**

Built a real-time **Monocular Depth Estimation** system using **MiDaS (DPT-Hybrid)** model to predict depth from a single RGB image. Integrated with **YOLOv8** for object detection and **Deep SORT** for object tracking. Implemented multilingual voice alerts using **Edge TTS**, providing obstacle awareness in English and Tamil. Optimized the system for real-time performance on **Jetson** hardware, targeting smart vehicle assistance.

PERSONAL PORTFOLIO WEBSITE LINK **2025**

Developed a responsive personal portfolio website using HTML5, CSS3, and JavaScript, showcasing modern UI/UX design principles and smooth animations using AOS. The platform serves as a live demonstration of front-end development skills, highlighting projects, technical expertise, and interactive design capabilities.

CERTIFICATIONS

Mastering DSA using C and C++	**Udemy**	**2025**
Java Programming	**Udemy**	**2025**
Python Programming	**SimpleLearn**	**2024**
SQL	**HakkerRank**	**2024**
C Programming	CoddyTech	**2024**
